

BeyondMushrooms is a premium line of organic mushroom extracts standardized to **70% beta-glucans** and backed by the **world's only FDA GRAS notice for mushroom extracts**. **Clinically validated** at just **200mg per day**, it gives brands a clear edge in **safety, potency, and consumer trust**.

Engineered for coffee, BeyondMushrooms offers **100% solubility** and a **neutral flavor** profile that protects the integrity of your roast. It eliminates the sediment and bitter off-notes of generic extracts, allowing for a smooth, **high-impact functional brew** in everything from instant powders to RTD cold brews.

Organic Mushroom Extracts Built For Coffee Formats

503° Heat Stable

Functionality remains stable through brewing, roasting, pasteurization, and more.

100% Soluble

Instantly dissolves in hot or cold liquids. No clumping, settling, or grit.

1-11 pH Stability

Easily handles the low pH of coffee. Maintains stability across the full spectrum.

70% Beta-Glucans

Industry leading potency providing real functional power. Megazyme verified.

200mg Dose

Clinically validated at just 200mg/day. Lower cost, higher impact, smaller formula.

Neutral Flavor

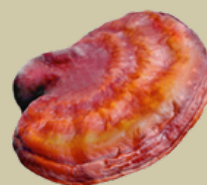

Naturally sweet due to ultra low protein content. No bitter or earthy off notes.

Four Extracts, Each Sold Separately

Cognition **Lion's Mane**

Clinically shown to support mental clarity, focus, and memory

Immune Health **Reishi**

Clinically shown to support daily immune system maintenance

Energy Support **Cordyceps**

May support physical performance and natural energy

Wellness Support **Antrodia**

May support liver health and total body recovery

Is Your Mushroom Extract Regulatory-Ready?

Coffee brands are switching to BeyondMushrooms after facing regulatory challenges with non GRAS-notified mushroom extracts. Don't wait for a problem, start with the only extracts that are already FDA-reviewed.

FDA-Notified GRAS BeyondMushrooms™

- FDA reviewed safety data with a “no questions” letter
- Highest level of safety validation
- Meets the strictest retailer requirements
- Reduces regulatory risk and protects your brand
- Enables Nutrition Facts panel labeling for food & beverage

Self-Affirmed GRAS Generic Extracts

- Company declares its own ingredient is safe, no FDA review
- No official FDA validation of “no questions” letter
- Retailers may refuse products with FDA-notified status
- Products may be pulled from shelf
- Limited to Supplement Facts labeling only

Formulate Across Every Coffee Format

Mushroom Coffee Blends

Ground, whole bean, or instant coffee infused with functional mushroom benefits.

Ready-to-drink Coffee

Water solubility ensures smooth, sediment-free beverages at home or in the shop.

Creamers & Mix-Ins

A functional boost to powdered or liquid creamers. Zero impact on flavor.

BeyondMushrooms™ vs. Generic Extracts

Specification	BeyondMushrooms™	Generic Extracts
Beta Glucan Content	>70%	10% typical
Effective Dose	200mg/day	2,000mg+ needed
GRAS Status	FDA-Notified	Self-affirmed or none
